***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the closest prior art, the L'Esperance Patent 5,300,020, does not teach the instant limitation of an "outwardly exposed surface" as required by the instant claims. Accordingly, L'Esperance does not disclose the addition of a substance to the device, which would make it easily visualized or contrast the surrounding tissue. The instant claims are not obvious over the prior art because the use of structurally similar plugs with an energy absorbing substance are not described.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shahnam Sharareh whose telephone number is 571-272-0630. The examiner can normally be reached on 8:30 am - 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreenivasan Padmanabhan, PhD can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
